SITUATION SUMMARY

Castella Water Tank Rupture, Shasta and Siskiyou Counties

- Per Cal OES IDO: The community of Castella had a water tank rupture on 10/08/15. They are currently under a boil water order with samples expected to be taken on Monday for testing. State Water Board Division of Drinking Water is aware of the situation.

City of Yreka Water Main Break, Siskiyou County

- Per Cal OES IDO: A water supply line suffered a break on 10/09/15. The city is currently under a boil water order. Per State Water Board Division of Drinking Water, [water test samples are anticipated today](#). Fairchild Medical Center is currently operating from potable water trucks.

Fleet Week, San Francisco, San Francisco County

- The final events of Fleet Week (Public Ship tours, festivities at Marina Green) continue today. The Blue Angels will fly its final show today, Sunday. Thousands of people are expected for Fleet week and other weekend events taking place in the city. BART is recommended for those planning to join the festivities today..

Cal OES Activation Status

- The Cal OES State Operations Center (SOC) transitioned to Joint Field Office (JFO) operations with FEMA to support recovery operations.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- No significant Weather Watches or Warnings are in effect.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

A warming and drying trend can be expected today through much of the workweek, with generally sunny skies across much of the interior. Temperatures will reach well above normal values by Tuesday and Wednesday.

Medford Weather:

High pressure aloft will continue to gradually build through midweek and then begin to shift east late in the week. A thermal trough will also develop along the South Coast, which will result in at least offshore flow. All of this will lead to a sunny, warm, and dry week ahead for most of the region's inland areas from the coast. There will be the usual night time stratus intrusions at the North Coast, but the South Coast will tend to be clear with offshore flow.

Reno Weather:

Strong high pressure will build back over northeast California and western Nevada today and persist through Wednesday, bringing well above average to near record temperatures along with lighter winds. Low pressure moves into California and Nevada Thursday and Friday for cooling temperatures and a chance for showers.

San Francisco Weather:

Dry weather will continue through Tuesday and a warming trend is expected on Monday and Tuesday. A low pressure system currently located west of the Baja Peninsula will move to the northeast and into southern California by the middle of the week, possibly resulting in precipitation over the southern portion of the forecast area by Tuesday night or Wednesday.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Mostly clear with above normal temperatures through midweek. End of next week could see more clouds and mountain showers as a weather system moves up from southern California.

Hanford Weather:

High pressure over the west has allowed for warmer than average temperatures to dominate the weather pattern. These conditions will continue through the middle of the coming next week. Temperatures will lower slightly on Sunday as a weak onshore flow is expected to develop.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

High pressure will gradually weaken, cooling a few degrees each day through at least midweek. A trough of low pressure and subtropical moisture will increase the humidity and may bring a chance of showers to the mountains and deserts on Monday and Tuesday.

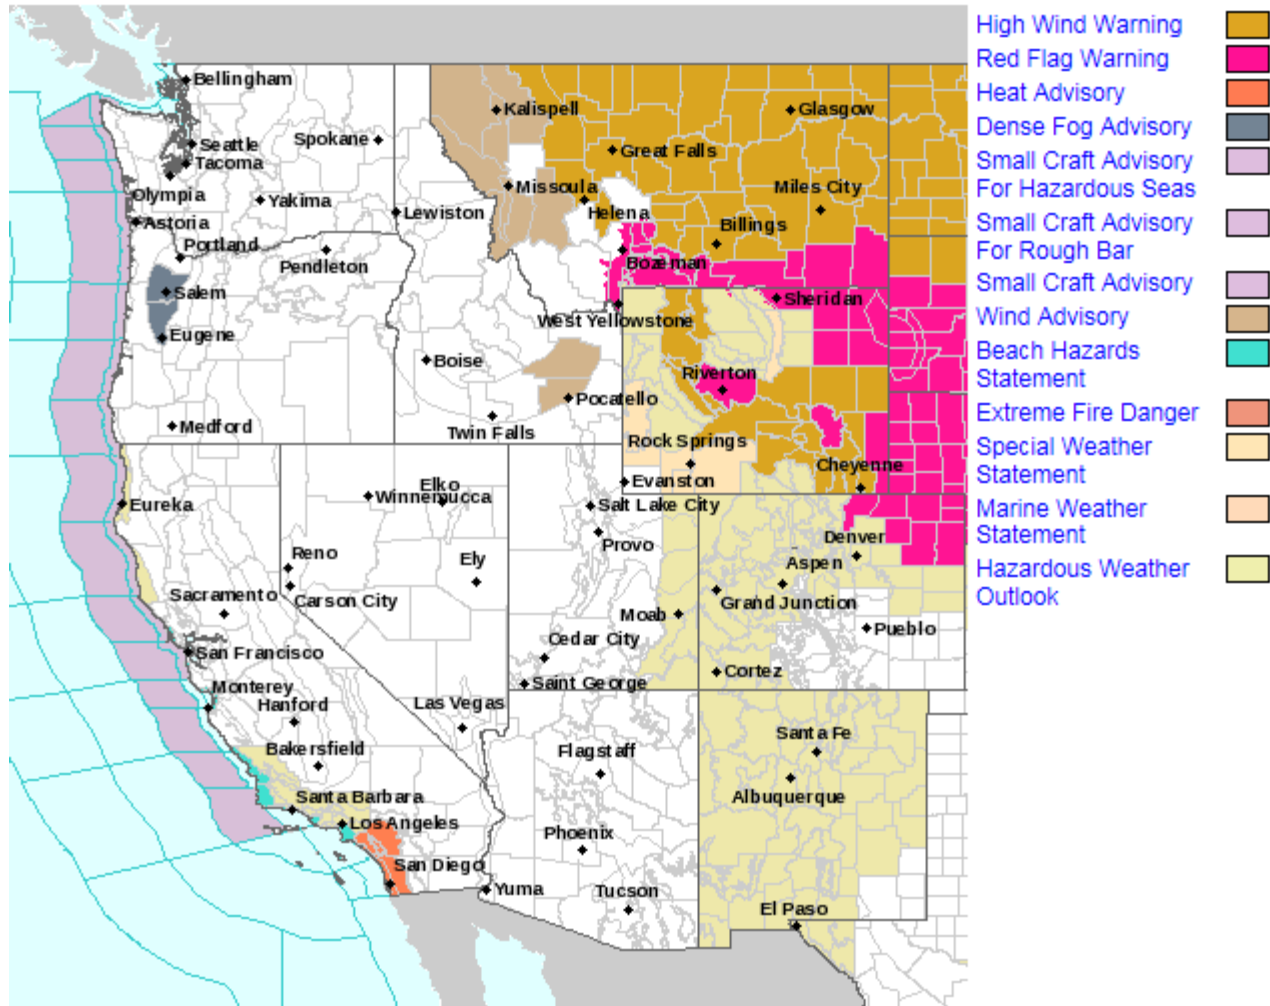

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

High pressure aloft will continue hot dry weather today. A low pressure system to the southwest will move slowly inland across central and southern California the latter half of the week. This will bring increasing moisture with a chance of showers and thunderstorms, more likely in the mountains and deserts and during the afternoons and early evenings. This will also bring a cooling trend with high temperatures returning to near to slightly above average for late in the week.

Southeast California Weather:

A low pressure system across northern Mexico will continue drifting westward leaving the southwestern states under a tranquil weather regime into the middle part of the upcoming workweek. Well above normal temperatures will persist through at least Wednesday with many lower desert locations seeing highs approaching or reaching 100 degrees. Thereafter, a low pressure system will bring cooler temperatures, increased cloudiness and a chance of rain to the region for the end of the week.

STATE WEATHER MAP

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC every Monday at 1100 hours.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

CAL OES MISSIONS

Closed Cal OES Missions

2015-LAW-18979 10/10/15 1130 hours: AFRCC reported a PLB activation in the Leaning Tower area of Yosemite National Park, Mariposa County. AFRCC personnel contacted Yosemite National Park rangers, who were aware of the incident and had rangers responding. Yosemite did not request any additional assistance. **Update:** Late in the afternoon, Yosemite advised the PLB had been used to request assistance for an injured climber. The climber had been able to walk out and no additional assistance was needed. **Mission Closed**

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
